

**MAKING CLOUD EASY**

## **dNation - MAKING CLOUD EASY**

Martin Pilka, CEO & Co-founder

# dNation: d = Development | DevOps

- We are Software Developers
  - Mostly asynchronous backend systems (Java, Python, C++, LUA)
- We are DevOps engineers
  - Supporting our clients migrating to cloud
- Industries: Banking

# Active Open Source Contributors

- IaaS and CaaS fully compliant with European Data Protection, without vendor lock-in
- Won SCS-VP06c Managing Container Images tender
- Kubernetes as a Service (KaaS)
- Monitoring

ALASCA YAOOK

- One of the 7 founding members
- Supporting digital sovereignty in Germany and Europe
- YAOOK - The Lifecycle Management Tool for OpenStack and SecuStack
- Used in production by Schwarz IT (ALASCA member) managing Kaufland and Lidl infra
- dNation Monitoring   
- See status of your infrastructure and applications at a glance using semaphore principle
- Used in production to monitor Kubernetes clusters we are managing for our customers

# Active Open Source Users

- Fully Open Source Office

**LibreOffice**  
The Document Foundation

Collabora Office

- Cloud Open Source Projects

kubernetes

Prometheus

Grafana

- Open Source Development Tools

GitLab

Mattermost

**MAKING CLOUD EASY**

**THANK YOU**  
for your attention
